ACCEPT SCOVILLE SEPTEMBER DATE

CHURCH COMMITTEE DECIDES TO HAVE MEETING, BEGINNING 10TH.

AWAITING ANSWER FROM EVANGELIST

Five Men Appointed to Select Location for and See to Construction of Tabernacle.

At the meeting of the Ministerial Alliance and the committees chosen from the Protestant churches held Sunday afternoon to consider the offer of Charles Reign Scoville to hold evangelistic meetings in Maryville during the month of September, it was decided to accept his offer if he can come September 10. The ministers and committee thought it would be better to start the meeting after the close of the county fair, which is September 4 to 9.

A wire was sent to Mr. Scoville at Chicago to that effect, and up to noon today no reply had been received. Mr. Scoville is taking his vacation now. The meetings would continue for one month or until October 9.

A committee composed of one member from each Protestant church was appointed to arrange for a location of the tabernacle, and also for the building of a tabernacle where the meetings will be held if Mr. Scoville can come. It is composed of Dan R. Baker of the Buchanan Street Methodist church, G. B. Holmes of the Baptist church, S. G. Gillam of the Presbyterian church, W. C. Frank of the Christian church, and S. H. Kemp of the First M. E. church. This committee will have charge of all arrangements for the opening of the meetings.

Mr. and Mrs. Gray left Estes Park through the Switzerland Trail of America, coming back by the Omaha, Lincoln and Denver highway. They said that this is a little shorter but the Lincoln highway is much better.

Their trip covered a distance of 1700 miles and they had very little trouble, only three punctures. It took six days for the round trip. The trip was made in a Dodge car.

PICNIC SUCCESSFUL

PERSONS FROM ALL NEARBY TOWNS AT YEOMEN GATHERING.

PROGRAM IS EXCELLENT

Music Furnished by 9-Piece Orchestra —Four Men Address Crowd—Basket Dinner Served.

Nearly every town in the county had representatives among the large crowd that attended the Yeomen picnic which was held at Normal park yesterday. From the middle of the morning, when the picnickers began to gather from the four corners of the county, until night closed the festivities there was not one dull moment, and the Yeomen consider the gathering the most successful that they have ever had.

The speakers of the day were M. E. Ford, Prof. P. O. Landon, Mayor Robey and Joe Crawford of Wilcox. Attorney Ford addressed his remarks to the Yeomen in particular, and told them that he had been a Yeoman for the last seventeen years. He said many things in praise of the organization and predicted great success for it in the future.

The music was furnished by a nine-piece orchestra under the direction of E. C. Tibbetts, and by a ragtime orchestra directed by Dave Williams.

The numbers on the program were unusually good, only one performer failing to put in his appearance. This was Frank Vrooman, son of the state manager of the Yeomen, who was to have come from Kansas City, but who was unable to get to Maryville in time to take part in the program. The others taking part were Miss Amy Clark and Miss Velma Johnson, who sang solos; Miss Genie Aley, who gave a reading; Miss Lucie Williams (colored), also sang a song.

CLEANERS WINNERS

LINCOLN TEAM TAKES GAME FROM MARYVILLE 12-3.

FEDS IN BAD SHAPE

Accidents Go Hard With Locals—Unable to Hold Against Heavy Hitting and Good Base Running.

A real base ball team invaded Federal park at the fair grounds yesterday and got what they came after—the ball game. The Lincoln Cleaners was the said team, and won the game 12-3 by heavy hitting and good base running.

The Feds were in a bad shape yesterday. Hecker, the catcher Manager Funk had engaged to catch while Stophens was out with a broken finger, did not come, so Harry Tilson was started behind the bat. Scott went to first and Stephens to left. But Stephens donned the mask in the third, regardless of his finger. Thieman could not come yesterday and Vaughn was unable to stop the hitting of the visitors.

The features of the game were a home run to deep center by Sitzman, the first man up for the Cleaners in the third, a neat catch of a liner by Stewart, and two fast double plays.

Wednesday the Feds go to Clarinda to play in a tournament with Shenandoah, Burlington Junction and Corning, Ia. Next Sunday the fast Albany team, which has two wins over the Feds, will play here again.

TO STATE MEETING

GEORGE ROBB ELLISON LEFT FOR JEFFERSON CITY.

WILL ADOPT PLATFORM

While the Democratic State Committee Will Perfect Organization—The Republicans to Meet, Too.

George Robb Ellison left last night for Jefferson City to attend the meeting of the Democratic state committee, which meets in that city on Tuesday. Mr. Ellison is a member of the committee from this district, and at this meeting the committee will organize by electing a chairman, secretary and treasurer, and will discuss plans for the coming campaign. Mr. Ellison went by way of St. Louis, where he is spending today conferring with party leaders.

Col. Frederick D. Gardner, Democratic nominee for governor, and United States Senators William J. Stone and James A. Reed will attend the Democratic Platform convention to be held in Jefferson City tomorrow.

It is generally understood Senators Stone and Reed have completed the draft on the national issues to be inserted in the State platform. They will confer tonight at the Planters Hotel with state and local leaders as to the salient features in the platform concerning state issues.

It is known many of the successful condidates for this legislature are in favor of modifying the primary law. A plank urging the coming General Assembly to simplify this statute already has been prepared and will be presented to Stone and Reed.

The representations in the conventions consist of members of the state committee; nominees on the state ticket; congressional nominees; senatorial nominees and nominees for the legislature, a total of 216 members, if they all attend.

On account of the fact that congress is in session there will be but few of the Democratic nominees for congress in attendance.

Judge Henry Lamm, Republican nominee for governor, and Walter S. Dickey Republican nominee for United State senator, with other candidates on that ticket, will also be on the ground by Monday night for the Republican platform convention.

EXECUTIVE TO TRY FORCING ISSUE, IDEA

Heads Declare They Will Listen to Proposal and Take It Under Consideration.

Special to The Democrat-Forum.

Washington, Aug. 21.—The reply of the railroads to the president's ultimatum fixing the terms to avert a nation-wide strike will be delivered after thee executives of every road hav passed upon the plan. Nearly 100 executives are here today. It was decided to take no action until each road threatened with the tie-up had spoken through its president. It is expected that all the executives will be on hand tomorrow and go before the president. They will present their program and listen to the president's plan and take it under advisement for final action.

Desultory conferences throughout the day kept the railroad managers in a turmoil of heated discussion, sharp differences arising. The brotherhood representatives held a brief meeting and adjourned until tomorrow.

The insistence of the president upon immediate action led to the conclusion that he is determined to force the issue. As they started for the White House, where they will confer with President Wilson, the railway presidents insisted, so far as they are concerned the conference will develop nothing. They declared they will listen to a proposal and will take it under consideration.

This Delicious Chew Has the Wonderful Flavor of Choicest Burley Leaf

Nature's own sweetness is in every juicy chew of Old Kentucky. You never before tasted such mellow richness—you can't get so much deliciously sweet flavor out of any other chew.

The rich leaf for Old Kentucky is selected, re-selected, picked over by hand, stemmed by hand, pressed into pure, luscious, golden-brown plugs by the most wholesome modern methods.

POOR CROPS IN SOUTH DAKOTA.

Black Rust Said to Be Cause of Short Yield in Wheat District.

Will Collins and Mark Anderson of Arkoe returned Saturday from Hitchcock, S. D., where they have been working in the harvest fields. They report wheat making only three to eight bushels an acre, and also to be of poor quality. Black rust is said to be the cause of this short crop.

C. D. Shipps of Arkoe shipped a threshing machine there last year and took a crew of men about two weeks ago to assist in the threshing this year. On account of the poor crops, the machine men are threshing by the day instead of by the bushel. The price for machine and machine men by the day is $60.

CIRCUS DAY WEDNESDAY

Yankee Robinson to Show Here Near the Wabash Depot—City License is $50.

Wednesday will be circus day in Maryville. The Yankee Robinson enormous three-ring wild animal circus will be here.

Think of a circus performance given almost entirely by wild animals and domestic animals. Can you imagine acrobatic lions, riding leopards and tigers, juggling sea lions, high diving monkeys, pigs that do everything but talk, waltzing zebras, base ball playing elephants, high school horses, clown elephants, comedy Teddy bears—bears that actually do more comical stunts than the modern clowns—all of these animals appear with the big Yankee Robinson Wild Animal circus. In addition to the big wild animal circus, all of the popular features of the old-time circus are carried, together with a complete wild wets show, which brings the performance to a wonderful close. The Yankee Robinson circus this season maintains it has the most wonderful, sensational and pleasing exhibition before the American public. On circus day you will also have the opportunity of visiting the Parker carnival company, which will exhibit day and date with the big circus. All the latest riding devices are carried.

The city license for this show is $50. They will exhibit in the Holt property, near the Wabash depot.

Policy Holders Attention:

Notices of assessment number 16 have been sent out by the State Farmers Insurance Company of Cameron, Missouri.

We desire to advise our customers, or persons holding insurance in this Company that their assessments may be paid at this bank, regardless of any particular place of payment named in the notices sent out.

We wish to make this perfectly clear for the reason that last year quite a number of policy holders were notified, by parties other than the officers of the Company, to the effect that their assessments were delinquent, when, in fact, they had been paid either by check mailed direct to the Company, or at some place other than was specified in the notices.

BARKER IN ST. JOE

SENT BY PAINTER TO STRAIGHTEN OUT POLICE BOARD ROW.

POLICE HEAD TALKS 'MOB'

Would Treat Attackers as "Any Other Mob" if Attempt is Made to Oust by Force, Crandell Says.

Dr. U. G. Crandell, president of the old St. Joseph police board, issued a statement last night which was, in effect, a challenge to the Painter board to a test of strength in court and a warning that if force were attempted to obtain custody of the police department and records it would be met with force—the attackers would be "treated as any ordinary mob."

His statement follows:

"If the Painter board considers that we are illegally holding our offices and acting as custodians of the police department, it has recourse to all the courts, and I presume such action will be taken in such an event. As long as I and Mr. McDonald consider that we are the legal custodians, however, we will defend the records and the property of the department at any cost. If any attempt is made to gain foreible possession of the station, as it has been persistently rumored there would be, the attackers will be treated as would be any other mob."

When informed that Attorney General John T. Barker was in St. Joseph to take a hand in the police board row, Doctor Crandell said:

"Mr. Barker is an officer of the law. I presume that he will recommend settling the fight in the courts, rather than by mob violence. If we haven't a right to our offices, we welcome court procedure to oust us."

Double the usual number of officers are on duty constantly at central police station as a result of the rumors that an effort might be made to take the station by force. Doctor Crandell said he would maintain his custody there if it meant the sacrifice of life.

"I really know nothing about the situation except what I have read in the newspapers," said Mr. Barker last night. "I will see the commissioners today and later decide what should be done. For the present I cannot discuss the finer points of the situation because I am too unfamiliar with them."

Mr. Barker said that he has given acting Governor Painter an opinion before the latter acted that he could oust Dr. U. G. Crandell and Joseph I. McDonald, the old board, who refuse to recognize Painter's action.

"There have often been removals of police commissioners," he said, "but this is the first time that any of them have ever refused to step out."

Famous Screen Sermon at the Fern.

"Traffic in Souls," the wonderful photo drama of the day will be shown at the Fern theater. This picture is the only picture of its kind that ever passed the Kansas state board of censorship. "Traffic in Souls" is the only photo play in the production of which the New York police commissioners co-operated. At its completion the following quotation shows just what a powerful weapon this unusual drama is: If every girl could see this play, if every mother could see this play, if every father could see this play, there would be a lessening in number of the thousands of girls and women who disappear each year, girls who are still living but in the grip of the white slave traffic, which is worse than death.

G. B. Tracy, secretary of the committee of the suspension of vice in St. Louis, said: "'Traffic in Souls' is the greatest moral lesson I have ever seen in any form. It is what all girls should see warning them against men who show undue interest in them upon a first meeting." There are 600 people in this stupendous production, 700 scenes.

"Traffic in Souls," in order to prove a telling warning, shows the actual lairs and dens of iniquity of the white slavers. This masterpiece of reality ran one solid year in New York. Positively no children under 16 admitted, unless accompanied by their parents.

FRIED CHICKEN DAY

State Poultry Board Set September 1 as the Day to Observe—Be Sure to Eat Fried Chickens.

Fred Crosby, secretary of the Missouri State Poultry Association, has sent to The Democrat-Forum the following about fried chicken day which is to be celebrated Friday, Sept. 13.

Thousands of Missourians remember the good times which were enjoyed at last year's Fried Chicken Day celebrations.

The Missouri State Poultry Association members and their friends are requested to arrange for the second annual celebration of this event on Friday, September 1.

The purpose of the celebration is to get together for a good, old fashioned picnic, where friendships can be renewed and a short program of poultry talks by prominent poultry raisers enjoyed and a lot of fried chickens with appropriate trimmings consumed.

Last year's celebration in all parts of the state did more for the good of the poultry industry of the state than any other one factor that has ever been employed to bring the poultry industry before the general public.

Editors on the large daily papers from New York to San Francisco wrote editorials about it and many of them bemoaned the fact that they could not be present to get some real country fried chicken, like mother used to serve. Practically all of the poultry journals published articles about the innovation and some of the leading weekly magazines devoted space to what the poultry breeders in Missouri were doing to promote good fellowship and have a good time.

A large number of the county branches of the Missouri State Poultry Association arranged for county meetings on that day to give the members an excuse to come together and get acquainted so that they could do better work for promoting their own interests.

A large number of reports of those meetings were published in daily and weekly papers.

The officers who have charge of the Fried Chicken Day picnics this year are requested to send reports of attendance, and special features to Fred Crosby, secretary, Mountain Grove, Mo., at once so he can give them the proper publicity. Also give your own local newspapers full accounts of the gatherings. Be sure to have plenty of surplus chicken provided so that the editor and his office boy can get a square meal, as fried chicken in a newspaperman's home these days of high cost for printing is a luxury.

If you cannot go to a Fried Chicken Day picnic, eat fried chicken at home on that day. The Missouri State Poultry Association has set it aside as Fried Chicken Feast Day.

GOOD ROADS

KEEP ROADS FROM 'WASHING'

Colorado Agricultural College Expert Makes Trip Through Mountains and Comments Thereon.

(By E. B. HOUSE, Colorado Agricultural College, Fort Collins, Colo.)

Having just returned from a trip into the mountains over the worst of roads, a comment or two should not be out of place at this time.

First. The road builder has followed the lines of "least resistance" and has given grades as steep as 20 per cent.

Second. He has made no provision for taking care of the rainwater falling upon or coming to these steep grades.

Result.—The road proceeds to "wash out" whenever a heavy shower strikes that section.

Remedy.—Whenever a road is built on a steep grade broad, shallow ditches

should be built at right angles to the road in such a manner that the water coming down the road to them will be caught and passed to the side and away from the road. These ditches on steep grades should not be over 300 feet apart so that the water may be caught and diverted before it collects in sufficient quantities to cut the ground. If a smoother road is desired these ditches may be covered by 2 by 6 inch planks placed one inch apart to allow the water to run through the cracks and into the ditch.

KEEP ROADS IN GOOD SHAPE

Split-Log Drag Is of Great Service in Keeping Roadways in Economical Repair.

The use of the road drag is important in putting the roads in good shape for winter use. There are over 2,000,000 miles of earth roads in the country, and the split-log drag is of great service in keeping them in economical repair. The drag is used in many states and in foreign countries. It is used with two, three, or four horses, and is easily constructed.

Drags are often constructed of planks instead of logs. The plank should be strengthened along the middle line by a 2 by 6-inch strip. A triangular strip may be used under the lower edge of the blade to give the proper cutting slope.

Usually two horses are enough to pull a drag over an ordinary earth road. The team should be driven with one horse on either side of the right-hand wheel track the full length of the portion to be dragged and the return made over the other half of

the roadway. The object of this treatment is to move earth toward the center of the roadway and raise it gradually above the surrounding level. While this is being accomplished all mudholes and ruts will be filled, into which traffic will pack the fresh earth.

Drag Roads When Idle.

After the rain, when you can't work in the fields drag that road.

Dragging the Roads.

In dragging roads only a small amount of earth is moved, just enough to fill the ruts and level off the high places. In general, the drag is drawn over the road at an angle of about 45 degrees.

Circumstantial Evidence.

The following instance of conclusive circumstantial evidence came to light in a case in which Lord Chancellor Eldon was employed on circuit. In later years he related it to one of his daughters in these words:

"I have heard some very extraordinary cases of murder trials. I remember in one, where I was counsel, for a long time the evidence did not appear to touch the prisoner at all, and he looked about him with the most perfect unconcern, seeming to think himself quite safe.

"At last the surgeon was called, who stated that the deceased had been killed by a shot—a gunshot—in the head, and he produced the matted hair and stuff cut from and taken out of the wound. It was all hardened with blood. A basin of warm water was brought into court, and as the blood was gradually softened a piece of printed paper appeared—the wadding of the gun—which proved to be half of a ballad.

"The other half had been found in the man's pocket when he was taken. He was hanged."

Death Record of a Monster Wave.

The greatest waves—apart from the true earthquake wave—are those caused by tornadoes or circular storms. In such a storm the barometer may be lower by three inches in the center of the storm than at its edge.

The consequence of this tremendous reduction of pressure is that the sea in the vortex rises high above the usual level and in this way are produced waves of appalling size and height.

It was a wave of this type which, in the dreadful tornado of 1876, swept upon the mouth of the Ganges and drove in over an area the size of Devonshire. By marks upon the trees it was ascertained that this great wall of salt water rolled in forty-five feet high. The damage done was appalling, and more than 100,000 unfortunate natives were drowned.—London Times.

Hiding Places For Money.

The woman who, as just revealed in the law courts, hid her savings on her mother's grave in Forest Hill cemetery probably hit upon a unique cache. But there is no saying. The person who mistrusts savings banks generally looks around for the most unlikely spot in which to deposit wealth, and more than one may hit on the same idea.

Old cannon, for instance, seem to form favorable depositories. Quite a quantity of jewelry was found some time ago in a solitary gun which stands in the fort at Shoreham, and about the same time a bag containing seventy sovereigns was discovered in an old cannon in Peel park, Bradford.

From one of the old Crimean cannon at Liverpool also some inquisitive youngsters once brought forth a soldier's discharge papers and notes to the value of £100.—London Standard.

A Cow For a Life.

The Ober Gabelhorn is a peak notorious for the dangerous cornices which decorate its upper ridges. Of many accidents reported in connection with it perhaps the most remarkable, says G. D. Abraham in "Swiss Mountain Climbs," was the adventure which befell an amateur and his young guide. In passing along the dangerous final cornice it suddenly gave way under the amateur, and he went flying through space to apparent destruction. The guide at the other end of the rope seemed in hopeless plight, but with astounding presence of mind he flung himself down the opposite side of the ridge, thus saving two lives. The rope cut deep into the snow above, but held firm. The young guide's name was Ulrich Almer. His reward was a cow.

Periscopes.

The first periscope, a crude affair embodying an arrangement of flat mirrors, was invented by a Dutchman, Telar van Elven, who in 1859 built a semisubmersible boat at Amsterdam. The modern periscope, with parabolic mirrors, was described in a magazine article by a French university professor just before an American inventor, sailor and writer of sea tales applied for a patent on the same idea. They worked independently, but the American, Morgan Robertson, is generally recognized as the inventor because he invented the machine for grinding the lenses.

Indorsement Guaranteed.

"Of course you have an echo somewhere around the place," said Miss Cayene.

"A number of them," replied the hotel man. "Shall I direct you to them?"

"I don't want one for myself. There is a man in the party who insists on being absolutely agreed with every time he says a word."—Washington Star.

Concerning Ideals.

"So you are engaged?"

"Yes, auntie."

"And are you satisfied with his ideals, my dear?"

"Well, I can hardly be otherwise, auntie, dear. He says I am one of them."—Exchange.

The Only One Lacking.

"Why are you so sure there is no such thing as a fourth dimension?"

"Because," replied the discouraged fat man, "if there was I'd have it."

What He Laid By.

"Have you laid by anything since you took up the profession of authorship?"

"Yes; about 300 manuscripts."

We fancy that everybody is thinking of us. But he is not; he is like us—he is thinking of himself.—Charles Reade.

In a letter written by John J. LaVelle, who is with the Maryville boys at Laredo, Texas, to Herman G. Barton of this city, he says:
